AFTER Emsella

MUSCLE STIMULATION AND STRENGTHENING

Results and patient experience may vary. Patients shown in the B&A pictures are within +/- 5 lbs of their original weight unless specified. As with any medical procedure, ask your doctor if the EMSCULPT® and/or Emsella® procedure is right for you. EMSCULPT® is intended for improvement of abdominal tone, strengthening of the abdominal muscles, development of firmer abdomen. Strengthening, toning, firming of buttocks, thighs, and calves. Improvement of muscle tone and firmness, for strengthening muscles in arms. BTL Emsella® is intended to provide entirely non-invasive electromagnetic stimulation of pelvic floor musculature for the purpose of rehabilitation of weak pelvic muscles and restoration of neuromuscular control for the treatment of male and female urinary incontinence. ©2021 BTL Group of Companies.
