

Course Description

Grade 4 Science

Philosophy Statement: Science instruction equips students to know and experience God's basic eternal truths revealed through His creation. Science deepens the students' faith, understanding, and awareness of the eternal power and divine nature of God. (Romans 1:20)

Course Objective: Students will explore and experience a variety of subject matter in the field of science including life, physical, and earth sciences. They will read, research, discuss, participate in group and individual projects, and use the scientific research process.

Materials:

- Student textbook
- Various manipulatives

Time Allotment: 30 minutes per day, 5 days per week

Course Content:

- Pond communities
- Reptiles
- Birds
- Circulatory System
- Sound
- Oceans
- Weather

Areas to be evaluated:

- Class assignments
- Homework assignments
- Projects
- Quizzes
- Tests

Additional activities:

- ABC Reptile Book
- Examinations of Owl Pellets
- Science Fair-Optional
