

Course Description

Grade 4 Technology

Philosophy Statement: God has given man the intellect and ability to design and use complex technology for His purpose and glory. Technology is essential for effective education in an information-based society. A strong foundation in technology based on spiritual, ethical, moral, and intellectual integrity provides for effective integration in all areas. This foundation also enables students to achieve success in learning, communication, and life skills. A student's witness for Christ should be reflected through the use and application of technology.
