Course Description
Grade 6 Technology

Philosophy Statement: God has given man the intellect and ability to design and use complex technology for His purpose and glory. Technology is essential for effective education in an information-based society. A strong foundation in technology based on spiritual, ethical, moral, and intellectual integrity provides for effective integration in all areas. This foundation also enables students to achieve success in learning, communication, and life skills. A student's witness for Christ should be reflected through the use and application of technology.

Course Objective: Students will explore computers and applications through research, problem-solving, and communication.

Textbooks: None

Materials:
- Computer

Time Allotment: Varies (based on unit of study)

Course Content:
- Excel
- Chart Wizard
- Word
- Internet research
- PowerPoint
- Responsible use of technology

Areas to be evaluated:
- Correct formatting on documents/projects
- Class participation

Additional activities:
- Reinforcement of concepts in library/media
