Course Description
Kindergarten Technology

Philosophy Statement: God has given man the intellect and ability to design and use complex technology for His purpose and glory. Technology is essential for effective education in an information-based society. A strong foundation in technology based on spiritual, ethical, moral, and intellectual integrity provides for effective integration in all areas. This foundation also enables students to achieve success in learning, communication, and life skills. A student's witness for Christ should be reflected through the use and application of technology.

Course Objective: Students will acquire introductory concepts and skills associated with a variety of technology devices.

Textbooks: None

Materials:
- Computer & curriculum-related software
- Cassette/CD Player

Time Allotment: About 20 minutes per week

Course Content:
- Basic computer operations
- Purpose and use of a variety of technology devices
- Introduction to responsible use of technology

Areas to be evaluated:
- Teacher observation

Additional activities:
- Learning center time
